March 28<sup>th</sup>, 2016

Randy G. Sager  
President  
REACTION Co.  
P.O. Box 22917 GMF  
Barrigada, Guam 96921

Dear Randy,

I'd like to extend my appreciation for the tremendous effort your company gave while performing the HVAC Replacement Project at the Mt Santa Rosa Long Range Radar (QLR ARSR). Your team's exceptional attention to detail, dedication, and aptitude were paramount to the success of this project.

QLR ARSR is a critical radar facility, and the FAA mandates strict requirements to ensure its uninterrupted operation. REACTION was not only willing to meet these constraints, but exceeded them in coordinating this sensitive work. As a result, the project was completed significantly ahead of schedule without any disruptions, and at a very high level of quality.

Thank you for your contribution to helping the FAA maintain the safest airspace in the world. You and your employees were a pleasure to work with, and I look forward to working together again in the future.

Sincerely,

A handwritten signature in black ink, appearing to read "Jonathan G. Salter".

Mr. Jonathan G. Salter  
Project Engineer/Contracting Officer Representative  
NAS Defense Programs (NDP)
